

## Celebrating Life in Communion with Christ

*"A Mother's Love Should be Treasured"*

Ever since my Dad passed away, I am spending more time talking with my mother, helping her with different things that she used to decide with my father. As we go through the various decisions that she needs to make, we also speak quite often of my father and of the struggles of trying to raise a family with 8 children. While you all know how much I esteem my mother for her love and her generous spirit, our latest conversations have helped me to see her wisdom and strength of character that have served her well through all those years of raising a family.

I write this because we all know what a special treasure a good mother is. Yet, I wonder how many of us realize that this treasure actually grows more precious over the years? I do.

Rejoice in the risen Christ,

*Fr Nick*
